Abstract

Whole the world in societies adult those who did not and to labor incompetent persons such as social to the defense needs individuals financial support of provision legal basics social of justice basis is considered Many of countries Crime Codes Articles 122 and 123 are valid within the framework, including in Uzbekistan those who did not and old to parents relatively material help obligations from doing neck extortion heavy to crimes directed. This articles such to help depends of those who welfare and value protection to do for very important

Key words: *Crime elements , Legal responsibility , Offense nature , To work incompetent individuals , Adult those who did not*

Article 122. Adult those who did not or to labor incompetent individuals material from providing neck extortion

Crime in Article 122 of the Code not enough and to labor incompetent individual's material provide according to physical of individual's responsibility separately attention directed. In it age or to labor incompetence because of in care has been of individual's welfare for necessary material help that they get provide according to legal commitment shown.

1. **Financial from help escape:** in the article parents, guardians or another in charge of individual's adult those who did not and to labor incompetent individual's material provide according to legal obligations emphasized.

2. **Adult those who did not:** This is usually the case adult under the care of calculated and their guardians or their parents by material help get to the right have has been to individuals belongs to

3. **To work incompetent persons :** This the rule wide scope scenarios own into receives , including alimony payments from parents careless to leave , guardians dependent individuals provide can't or disabled family members support for own responsibility give up passing persons .

4. **Penalties:** Note in Article 122 as done, this obligation from doing on purpose neck extortion criminal offense is considered and dependents in front of financial obligations careless to leave seriousness reflection bringer fine or prison such as to punishments take coming can

These all of them own in our language to say if :

• Adult did not or to labor incompetent person material provide according to legal to obligation have without excuse this duty from doing neck extorted or carelessness did person in the offense guilty is considered

- Material help show obligation family relationship , guardianship or another legal from obligations come comes out

- Physical or mental inability because of himself to provide able didn't happen person to labor incompetent is considered

- Offense [punishment mark it fine , imprisonment or each own both into take with possible] . will be punished .

- Court punishment in appointment of the accused material condition , adult did not or to circulation incompetent of the person needs account takes

- If material from help escape adult did not or to circulation incompetent of the person to the well-being harm if he delivers or risk if it gives birth , punishment more harder to be can

- Financial from help escape legal excuses , if the obligation perform for reasonable actions done if so , to support forced has been of the person serious financial difficulties own into take can

- This substance adult those who did not and to labor incompetent of individual's welfare and protection to provide, necessary material help show according to own duties carelessness did individuals to responsibility to pull directed.

This article of society weak those who are protection to do and of them financial interests for that they don't use it to provide How importance to give reflection makes

This is an adult those who did not or to circulation incompetent individuals own interests on the way exploitation to do aspiration possible has been individuals interrupter tool being service does

Crime Article 122 of the Code of not enough and to labor incompetent of individual's material welfare and rights protection to do directed important legal is the norm. This weak from groups financial help to ask considered a crime through it financial in matters himself protection do it those who do not protection to do principle strengthens

Article 123: Parents material from the help neck extortion

Crime of children in Article 123 of the Code material help needs old of parents' legal protection mean caught This is an adult enough of children old their parents provide, their worthy and it's convenient to live tools have to be provide recognizes the obligation.

1. **Material help from giving neck embezzlement :** This is material help show according to legal from obligation escape or careless to leave movement means

2. **Legal commitment :** This article childishness responsibility principle defines , in which adult enough children legal respectively themselves to feed able didn't happen to their parents material help to show a must

3. **Cultural important has:** Many in cultures aged of parents their children by care and support deep absorbed gone are values. Article 123 that this values in the law strengthened , family of duty importance strengthen through reflection makes

4. **Criminal responsibility:** similar to Article 122, to parents relatively material supply obligations from doing neck Extortion is referred to in Article 123 caught criminal liability is considered Found guilty persons of the offence to the weight looking legal consequences, including fines or prison to punishment judgment to be done can

Such of laws The target is usually vulnerable parents themselves to provide able when not necessary financial without help not to stay is to provide. It is also in society family responsibility and obligations to strengthen service does

An example by doing to say if :

- Opportunity there is adult a mature child needs in the situation the rest old to his parent's material help to show careless if he leaves, to them in relation to Article 123 accusation put can

- These are the parents to his age depends diseases, disabilities or another circumstances because of work can't get and they are own to their children material help asking appeal who does situations own into take can

- Such cases the law adult enough to the children to their parents care to do , that's it including necessary cases material help show obligation download can

Summary: Summary by doing in other words, in our society social to the defense needs of individuals well-being in providing Crime Articles 122 and 123 of the Code are important place holds They are adult those who are not enough, to work incompetent persons and aged to parents material help of showing legal and spiritual obligation they emphasize. This the rules from neglect interrupter tool being service does and families and in teams' responsibility and of care main values emphasizes. This laws supporting, we are such to help of those relied on value and rights protection we will, everyone for fair and compassionate society we will develop.
